

Utility Scale Grid Connected Solar

Green Energy Capital Partners, is currently developing multiple Grid Interconnected Utility Grade Solar Energy Facilities in the United States and Europe.

We are extremely selective with regard to projects we agree to develop and invest significant investment capital to make a project shovel ready and financeable. We believe that quality is more important than quantity and look for long term relationships. If you have a specific project you would like to discuss please contact us at Info@GreenEnergyFinder.com Please include a detailed description of the property or location along with why you feel the site has potential. All inquires must contain complete contact information including name, address, email, and telephone number(s)
