

Press Release Oct 2012

Green Energy Capital Partners Looks to Shine in Peru October 18, 2012 Green Energy Capital Partners Announces a Strategic Alliance to Develop Utility Scale Solar Energy Facilities in Peru Conshohocken, Pennsylvania - Green Energy Capital Partners, LLC worldwide developers of Utility Scale Solar Energy Facilities announced today it has entered into a Strategic Alliance with Krebs Ventures LLC, a leading energy alternative solutions provider and consulting group. Green Energy Capital Partners Strategic Alliance with Krebs Ventures is an important complement to the company's goal to extend its reach and delivery strategy into Peru in order to accelerate its growing demand for solar developments worldwide. John Curtis, Founder and CEO of Green Energy Capital Partners, envisions a growing demand for clean and renewable solar energy in the sun rich country of Peru. "Electricity prices in Peru continue to escalate significantly, while solar installation costs have dropped significantly." Commitments to the Kyoto Protocol as well as grid parity to existing electricity generation production will drive significant installation of Utility Scale solar development. "Green Energy Capital Partners provides worldwide turn-key solar development including site evaluation, financing, design, engineering, construction, operation, maintenance and asset management." Krebs Ventures LLC provides pre development solutions, procurement and integration of solar projects. "Contact: John F.
